## PLAN AHEAD YOUR MARKETING & BRAND PROMOTION FOR 2018-19.

Dear Sir/Madam,

Greetings from India ITME Society!

With the advent of new financial year 2018-19 in April, we invite you to plan ahead your business Development strategies for next year. The mega **business** convergent of the year for textile and textile engineering sector - **GTTES 2019 is to be held from 1 - 3<sup>rd</sup> February 2019 in Mumbai, INDIA.** Next edition **GTTES** is the growth catalyst and **optimum** business platform with more business leads, new customers offering best sourcing solution to India's surging demand for Textile Machinery.

Despite multiple platforms, **GTTES 2019 in India is not to be missed**, since today India is one of the world's largest producers of Textiles and thus biggest market for textile machinery as well. The potential size of Indian textile and apparel industry is expected to reach US \$ 223 billion by 2021. This is a clear indication of the size of the market opportunity awaiting exhibitors at **GTTES 2019.**

India and its neighbouring countries are main contributors to the increased demand of textile machinery and **GTTES 2019 is opportunity to translate this demand to supply.** India is one of the few countries in world which has production at every level of **textile manufacturing viz.** Fibre manufacturing, spinning, weaving, knitting, processing and garmenting. The most significant change in the Indian textiles industry

has been the advent of manmade Fibres (MMF). **Except spinning, majority of the textile and apparel machinery demand of India is being catered by imports.**

**Weaving sector needs an addition of around 82,000 looms. The capacity of knitting segment would need to be scaled up with an addition of 24,000 knitting machines by 2020. Processing capacity will also need to increase its present capacity, with additional 30,500 Mn. Meters of fabric processing capacity required by 2020. 1.20 Million additional sewing machines would be required to be installed in garment sector by 2020 to cater to the high export and domestic demand for apparel in India.**

**The size of the textile machinery demand and the market opportunity is US \$ 75 Bn in India. GTTES 2019 offers sourcing solution to this market demand in India by focusing on weaving, knitting, printing, garmenting, embroidery and technical textiles.**

• [GTTES 2019 is not an event to be missed!](#) • **Meet the real buyers at the largest demand market for Textile Machinery. *Participate in the high intensity demand and supply match making for textile machinery in world's largest textile market-India at GTTES 2019, 1<sup>ST</sup> TO 3<sup>RD</sup> Feb. in Mumbai.***

**Key players are here. Are you?.** View GTTES AV@ <https://youtu.be/9axBDVP3-9U>
